

A little more everyday.

scoopfolk

A bright, sociable identity for daily fiber.

Expressive serif. Cool blue. A scoop of pink.

Meet the wordmark.

scoopfolk

scoopfolk

scoopfolk

The lowercase serif gives the name warmth and weight. Use the teal master on light backgrounds; use cream on teal or pink for large brand moments.

A small mark, with a role.

The Scoop

The original scoop remains our compact signature. Use it for avatars, favicons and small navigational details.

Give it room

Keep at least half the lowercase letter height clear around the wordmark. Minimum recommended width: 160 px digitally or 35 mm in print.

Use the symbol at 24 px or larger. Keep its tilt and proportions intact.

Never stretch, outline, add shadows, or arrange the letters differently. Keep the wordmark horizontal.

Color with a clear job.

Lead with sky and teal.

Sky is the main field. Teal carries body text, navigation and the primary logo. Cream adds breathing room.

Let pink punctuate.

Use hot pink for large identity panels and highlights. Blush is a softer secondary surface. Avoid small cream text on pink.

Body text: teal on sky, cream or blush. Reversed text: cream on teal. Colors are sRGB; proof print conversions with your printer.

Type that feels familiar.

**A daily thing.
A Scoopfolk thing.**

Georgia Bold

Headlines and expressive brand statements.
Sentence case. Short lines. Generous scale.

Aa Bb Cc Dd Ee Ff Gg

Arial Regular / Bold

Product details, descriptions and navigation.
Use clear language and comfortable spacing.

Body 16–20 px · Line height 1.45–1.6
Display 48–96 px · Line height 1.0–1.1

The wordmark is outlined Georgia Bold with adjusted spacing. Font files are not included. The exported wordmark needs no installed font.

The identity in use.

ABOUT OUR ROUTINE

**A little scoop.
A daily ritual.**

Simple graphic language

Broad color fields, rounded panels and plenty of space.
Keep the scoop as the recurring graphic.

Friendly and specific

Write in everyday language. Describe the routine clearly.
Product benefits and ingredient statements must follow the confirmed specification.

Ready for the next touchpoint.

Included

Wordmark and scoop in seven colors.
SVG vectors and transparent PNG exports.
Square avatar and Daily Fiber lockup.
CSS and JSON design tokens.
This guide in HTML and PDF.

File choices

SVG for websites, layout and scalable artwork.
PNG for presentations and simple placements.
Avatar for profile images.

Version record

V2 follows the user-selected BelliWelli reference for color and warmth. Scoopfolk retains its own name, wordmark and scoop symbol.

scoopfolk

V1 remains archived. Product formulation and future packaging development are documented separately.
